CAVEATS AND DISCLAIMERS

All data is taken from the 2016-2017 Common Data Set.

We admittedly made subjective and arbitrary choices, due to time constraints, concerning which institutions to include. We regret the omission of many excellent institutions.

We attempted to contact each institution whose 2016-2017 Common Data Set was not publicly available. Many responded to our requests for information, many did not, and a few refused to share their data. Those who did not respond are left blank. Those whose CDS data is unavailable or who refused to share their data we made note of in the "Source" column.

If a data point is left blank in this chart it is because the institution's Common Data Set is missing the data.

The information in the Common Data Sets and in this chart is compiled by humans. Errors will be made, and we apologize for any we may be responsible for. If important decisions require verifiable numbers, we strongly suggest that you contact the institutions directly.
